We need this record to provide you with quality care and to comply with certain legal requirements. This Notice applies to all of the records of your care generated by the Practice whether made by your personal physician or one of the office's employees.

This Notice will tell you about the ways in which we may use and disclose your medical information. This Notice will also describe your rights and certain obligations we have regarding the use and disclosure of your medical information.

### **How this Office May Use and Disclose Your Medical Information:**

The following describes the different ways that your medical information may be used or disclosed by the Practice. For clarification we have included some examples. Not every possible use or disclosure is specifically mentioned. However, all of the ways we are permitted to use and disclose your medical information will fit within one of these general categories:

**For Treatment:** We will use medical information about you to provide you with medical treatment and services. We may disclose medical information about you to doctors, physician assistants, nurse practitioners, nurse midwives, nurses, technicians and other office personnel who are involved in providing you medical treatment.

**For Payment:** We may use and disclose medical information about you so that the treatment and services you receive at this practice may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan information about treatment you received here so your health plan will pay us or reimburse you for the treatment. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.

**To Individuals Involved in Your Care or the Payment of Your Care:** We may disclose medical information about you to a family member or close friend involved in your medical care.

We may also give information to someone who is involved with payments or helps pay for your care. Additionally, we may disclose information for notification purposes such as your location or general condition.

**For Health Care Operations:** We may use and disclose medical information about you for office operations. These uses and disclosures are necessary to run our office and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many of our patients to decide what additional services the Practice should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, physician assistants, nurse practitioners, nurse midwives, nurses, technicians, and other office personnel for review and learning purposes. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning the identity of the specific patients.

**Appointment Reminders:** We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care at the Practice.

**Treatment Alternatives:** We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

**Health-Related Benefits and Services:** We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.

**Research:** Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who received one medication to those who received another for the same condition.

**As Required By Law:** We will disclose medical information about you when required to do so by federal, state or local law. For example, disclosure may be required by Worker's Compensation statutes and various public health statutes in connection with required reporting of certain diseases, child abuse and neglect, domestic violence, adverse drug reactions, etc.

**To Avert a Serious Threat to Health or Safety:** We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.

**Health Oversight Activities:** We may disclose medical information to a governmental or other oversight agency for activities authorized by law. For example, disclosures of your medical information may be made in connection with audits, investigations, inspections, and licensure renewals, etc.

**Lawsuits and Disputes:** If you are involved in a lawsuit or a dispute, we may use your medical information to defend the office or to respond to a court order.

**Law Enforcement:** We may release medical information about you if required by law when asked to do so by a law enforcement official.

**Coroners and Medical Examiners:** We may release medical information to a coroner or medical examiner to identify a deceased person or determine the cause of death.

**Other Uses of Medical Information:**

Most uses and disclosures of psychotherapy notes, uses and disclosures of PHI for marketing purposes and disclosures that constitute a sale of PHI require your written authorization. Other uses and disclosures of your medical information not covered by this Notice of Privacy Practices will be made only with your written authorization. If you provide us such an authorization in writing to use or disclose medical information about you, you may revoke that authorization, in writing, at any time. If you revoke your authorization, we will no longer use or disclose medical information about you for the reasons covered by your written authorization. In the event of a breach of your unsecured PHI, you have the right to be notified of the breach. This notification will be sent via first class mail.
